
Partner Universities Programme Offerings

Expand your professional and personal horizons with the lifelong learning opportunities offered by partner universities in the 4EU+ and CENTRAL alliances. Thanks to the support of the Erasmus+ exchange programme, you will have access to various specialised training programmes that will allow you to acquire new skills, improve your expertise and make international connections.

Choose a programme lasting from 2 to 60 consecutive days offered by our partners and consult with Mgr. Markéta Beťková about the possibility of financial support. All conditions for funding can be found on the website of the [International Relations Office](#).

The 4EU+ Alliance brings together not only academic but also administrative staff, organises staff training weeks and provides courses and training at the participating universities. Check out the [4EU+ Alliance](#) website to find activities you can get involved in. For more information, contact the [4EU+ Local Office at CU](#), and don't hesitate to reach out if you have any suggestions or proposals for new activities.

Don't miss the opportunity for personal and professional growth in an international environment!
